Name_____

Hypothesis
First Draft

The hypothesis is an educated guess. After doing background research, what is the expected outcome of the experiment? The hypothesis must show a reasonable relationship between the question and the predicted results.
A hypothesis is always supported with evidence from the literature review; explain *why* this is your hypothesis.

Begin a hypothesis with "It is hypothesized that…"

The Hypothesis:

It is hypothesized that_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____
