

SPACE RESEARCH PROJECT

Parts of the Project

Researching the assigned topic in the library	Researching the assigned topic on the internet
Collecting an adequate amount of information on the topic	Obtaining information from at least FOUR (4) different sources
Writing a Works Cited page for all references	Completing an outline of your content using the PowerPoint outline feature
Designing a PowerPoint presentation on the assigned topic	Presenting a 5 minute presentation (with the PowerPoint slide show) of the topic
Preparing a handout / worksheet	Working as a team

You will be given very specific information for each part of the project. It is very important that you read and follow the instructions. They will explain the details and answer most questions you have.

You will also be given rubrics to show how you will be evaluated on this project. The rubrics will help you understand what will be considered good or quality work for each part of the project. Make sure you refer to the rubrics as you work.
