## The Milk Bottle Quiz

A long time ago milk was delivered in glass bottles and left on the doorstep. One evening the milkman delivered two bottles of milk. The next morning the occupants of the house found the bottles cracked and bottle caps supported by columns of solidified milk.

Use the following key to indicate what the kind of statement each of the speakers is making.

- A. Observation
- B. Inference
- C. Question
- D. Prediction
- E. Factual

- \_\_\_\_\_ 1. Mr. Occupant, "It must be winter."
- \_\_\_\_\_ 2. Mrs. Occupant, "Yes, the milk was solid this morning."
- \_\_\_\_\_ 3. Mr. Occupant, "If the milkman sets the milk out again tonight, the same thing will happen."
- \_\_\_\_\_ 4. Mrs. Occupant, "I suppose so, the thermometer was at  $-10^{\circ}\text{C}$ ."
- \_\_\_\_\_ 5. Mr. Occupant, "Milk must expand when it freezes."
- \_\_\_\_\_ 6. Mrs. Occupant, "Yes, just like water does."
- \_\_\_\_\_ 7. Mr. Occupant, "Why do some things expand when they freeze?"
